Welcome to spring in Ohio, where the snow continues to pile up and the cold temperatures seem to never end. While I do like the winter season, I’m ready for it to end. I’m ready to see sunshine, green grass and leaves, and colorful flowers instead of gray skies, snow and brown leafless trees and plants!

"Shared Knowledge for Effective Government" is the Government Finance Officers Association's mission statement. By promoting the exchange of information among finance officers of all local governments, Ohio GFOA works to meet the challenges of the ever-evolving profession of government finance. If you have been involved in our recent educational opportunities and/or take a look at the educational and networking opportunities that are being provided over the next few months, I hope you'll see that this mission statement drives what the elected Board, and especially the education committee, chaired by Cathe Armstrong and Jeff McCuen are doing. Over the next six months the educational opportunities that are being provided, through webinars, seminars, national conferences and our annual conference in September, should give all of us timely, valuable information that will allow us to continue to do our jobs to the best of our ability. That is what we strive to provide. If you have suggestions for other topics that should be covered that will help you in your position, please make sure to let one of us know. Please check out all the opportunities on the website and I look forward to seeing you at one of these events.

Bob Hinkle
Ohio GFOA President

SEQUESTRATION'S IMPACT ON SUBSIDY BONDS

On March 1, 2013, President Obama issued the sequestration order under the Balanced Budget and Emergency Deficit Control Act ("Sequestration"), requiring automatic spending cuts as the result of Congress' failure to enact legislation to reduce the budget deficit. Among the federal expenditures affected by Sequestration are subsidies due to state and local governments which issued bonds pursuant to several bond programs authorized under the American Recovery and Reinvestment Act of 2009. Those bond programs included Build America Bonds, Qualified Zone Academy Bonds, Qualified School Construction Bonds, Qualified Energy Conservation Bonds, and New Clean Renewable Energy Bonds (collectively, the "Subsidy Bonds"), and provided for the payment of an interest subsidy from the federal government to the issuer.

GFOA CERTIFICATE OF CONFORMANCE PROGRAM

The GFOA has established a professional recognition program for small governments that prepare their financial reports on a modified cash basis. The new Certificate of Conformance Program for Small Government Annual Financial Reports (Certificate of Conformance Program) aims to improve the quality and consistency of financial reporting for small governments. It is designed for thousands of small governments for which financial reporting in conformity with general accepted accounting principles (GAAP) is not a viable option. For some participants, the program may be a first step toward GAAP financial reporting. For more information, visit GFOA.org.

MARYSVILLE AWARDED GFOA CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

Tim Pope presented the GFOA’s Certificate of Achievement for Excellence in Financial Reporting to the City of Marysville. The award was presented to their Finance Director, Jenny Chavarria, at their Council meeting. Included in the photo left to right: Nevin Taylor, Tim Pope, from the Ohio GFOA, Jenny Chavarria, Mark Reams, and Henk Berbee.
NEW YEAR PROVIDES OPPORTUNITY FOR GOVERNMENT FINANCE OFFICERS TO EVALUATE INVESTMENT HOLDINGS

The start of 2013 provides a good opportunity for all government finance officers to evaluate their current holdings and investment options. Particularly with some of the uncertainty in global financial markets, and fiscal policy in Washington D.C., it is important to ensure that public funds under management are placed in safe investment vehicles. Government finance officers should also be aware of recent developments at the federal level that could eliminate insurance on some government bank accounts.
